Seminar Topics:

This professional-level, hands-on, screen making seminar provides the technical background of making high quality screens for greater sales results. The class is instructed by Mick Orr, Application Specialist, who has been with Chromaline for 40 years. He brings his in-depth knowledge from supporting customers around the world.

Learn:

- Preparing emulsion & screens for flawless coating
- Difference between Diazo, Dual Cure & SBQ emulsions
- When to choose capillary film over direct emulsion
- How to coat screens manually and with an autocoater
- Multiple techniques for applying capillary film
- How to determine proper exposure
- Class member may request instruction on a specific topic or product
- And so much more!
