

HOW TO READ LOT NUMBERS

- 1.** The first letter indicates the year the product was manufactured. For example: J=2015, K=2016, L=2017, M=2018 etc.
- 2.** The next three digits indicate the day of the year: 001=January 1st. 152=June 1st, etc. (Example: A production with lot number H012 was manufactured on January 12, 2014).
- 3.** Digits after these are for internal use only.

Lot numbers are found on the upper left hand corner of the labels.
